11<sup>th</sup> Sunday in Ordinary Time 13<sup>th</sup> June 2021

The example of the seed growing through the night is the only parable to be found in Mark's gospel only. Since it is the same God who creates and who reveals, we should keep in close touch with the world of nature to be familiar with God's patterns and designs. We have day and night, light and darkness, summer and winter, advance and regression, growth and recession, action and sleep. We are more active after a good sleep. Our spiritual lives as well as the life of the church will be given periods of darkness, times of recession, which, in God's providence, are seasons of enrichment. We may not easily understand the process but *night and day, while he sleeps, while he is awake, the seed is sprouting and growing; how, he does not know.*
